# AZERBAIJAN PHOTO SALON 2018

## JUDGES:

Kakha Pkhakadze, Founder, Chairman of the Association of Photographers of Georgia

Nino Mghebrishvili, Founder, Board member of the Association of Photographers of Georgia

Natalia Zviadadze, AFIAP, Master APG

## CLUB CHAIRMAN:

Rashad Mehdiyev

## SALON CHAIRMAN:

Aleksey Anisimov

## FIAP SALON COUNTRY:

Azerbaijan

**T**he sponsors of this International Exhibition of Photography have been awarded Recognition by PSA, the world's largest patron of international photographic exhibitions. PSA, although it has provided Recognition, is neither a sponsor nor directly involved in the operation of this exhibition.

Valid acceptances received by PSA Members in recognized sections of this exhibition are eligible for PSA Star Ratings, listing in the world-wide PSA Who's Who of Photography and credited towards the PSA Distinctions of PPSA, EPSA, MPSA, GMPSA, GMPSA/B, GMPSA/B, GMPSA/G, and GMPSA/P.

PSA is a non-profit organization promoting the advancement of photography in all its forms to novice, amateur and professional photographers world wide.

For information on membership and the many services and activities of PSA contact:

# About Azerbaijan

Azerbaijan is the Land of Fire and the Pearl of the Caucasus, a land where eastern colours combine magnificently with western progress. Azerbaijan is a country of unique nature, unmatched culture, centuries of history with its customs and traditions and fine cuisine; a place which will satisfy the expectations of the most sophisticated gastronomists, and finally, it is the country of Caucasian hospitality and friendliness.

Azerbaijan is situated at the eastern side of the Transcaucasia (or South Caucasus) on the shores of the Caspian Sea. The population of Azerbaijan exceeds 9.8 million and the territory covers an area of 86 600 square kilometers. According to both of these figures, Azerbaijan is the largest country of the South Caucasus. The City of Baku is the capital and the country's largest city. The National language here is Azerbaijani. However, Russian is also widely used and many younger residents also speak English. Azerbaijan shares borders with Iran (765 km), Turkey (15 km), Russia (390 km), Georgia (480 km) and Armenia (1007 km). The eastern shores of the country are washed by the waters of the Caspian Sea.

Historically a part of the Great Silk Road and situated at the crossroads of the geopolitical, economic and cultural interests of many nations and civilizations, Azerbaijan has, since ancient times, aroused the interests of great minds, scientists, travellers and historians. References to this amazing land, located on the western coast of the Caspian Sea and in the eastern part of the South Caucasus, can be found in the ancient writings of Herodotus, Strabo, and Claudius Ptolemy. Azerbaijan has an amazing historical and cultural heritage

with more than 7500 natural, archeological, architectural, and historical monuments. Cave drawings at Gobustan, Momine-Khatun and Garabaghlar mausoleums, the Palace of Sheki Khans, the Maiden Tower, the castles of Absheron, medieval manuscripts decorated with magnificent miniature paintings, antique rugs, and works of literature, arts and sculpture – all of this is just a small part of the country's rich and priceless heritage.

Azerbaijan is often referred to as the "Land of Fire". It is known that the majority of those residing on this territory before the Common Era were fire worshippers. Since then, the country has preserved the ancient evidence of that era: cave paintings, statues of gods and ancient temples. Two of the most vivid examples of this heritage are the temple of fire-worshippers ("Ateshgah") at Surakhani near Baku and "Yanardag", translated as the "burning mountain". According to legend, "Ateshgah" temple was built by Indian fire worshippers, who arrived here after learning about the eternally burning fire, emitted from the ground, and were so amazed by what they had seen, that they decided to build a temple on this very place. These lands were considered to be sacred for centuries and throughout history were worshipped by the followers of Zoroastrianism, Hinduism and Sikhism.

The fire rhetoric, passed from generation to generation, has been reflected in the many artistic works of Azerbaijani masters throughout the centuries, and has recently reached its culmination in the form of The "Flame Towers" complex. Constructed in Baku not long ago, the Flame Towers have, in very a short period of time, become a breathtaking architectural landmark of the capital city, embodying a tribute to our history, and representing contemporary Azerbaijan – a new, ambitious country, developing and progressive, but still loyal to its roots and origins.

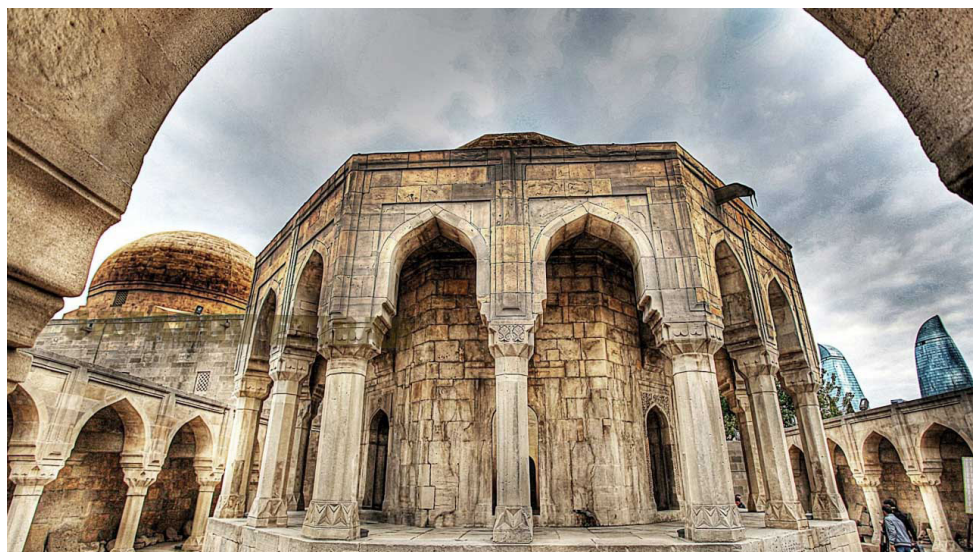

Azerbaijan is the West in the East and the East in the West! Welcome!

## Baku

Baku is the capital and largest city of Azerbaijan, as well as the largest city on the Caspian Sea and of the Caucasus region. Baku is located 28 metres (92 ft) below sea level, which makes it the lowest lying national capital in the world and also the largest city in the world located below sea level. It is located on the southern shore of the Absheron Peninsula, alongside the Bay of Baku.

Baku is divided into twelve administrative districts (raions) and 48 townships. Among these are the townships on the islands of the Baku Archipelago, and the town of Oil Rocks built on stilts in the Caspian Sea, 60 kilometres (37 miles) away from Baku. The Inner City of Baku, along with the Shirvanshah's Palace and Maiden Tower, were inscribed as a UNESCO World Heritage Site in 2000. According to the Lonely Planet's ranking, Baku is also among the world's top ten destinations for urban nightlife.

## Shirvanshahs' Palace

The palace was the former residence of the rulers of the Shirvanshahs. It is a complex where, in addition to the palace itself, can also be found a courtyard of the Diwankhana, the courthouse, the Shirvanshahs' burial vault, the palace mosque of 1441 with its minaret, the bathhouse and the mausoleum of the court scholar, Sayid Yahya Bakuvi. The palace complex was built in the period from the XIII to the XVI century. On the palace itself, no inscriptions have survived. Therefore, the time of its construction is determined by the dates on the inscriptions on various architectural monuments, which relate to the palace complex. In 1964, the palace complex was declared a museum-preserve. In 2000, a unique architectural and cultural ensemble, along with the fortified walls enclosed by the historic part of the city and the Maiden Tower, was included in the UNESCO World Heritage List. The Shirvanshahs Palace is considered one of the pearls of the architecture of Azerbaijan.

## Qiz Qalasi

Qiz Qalasi (The Maiden Tower) is a 12th century monument in the Old City, Baku, Azerbaijan. Along with the Shirvanshahs' Palace, dated to the 15th century, it forms a group of historic monuments listed in 2001 under the UNESCO World Heritage List of Historical Monuments as cultural property, Category III. It is one of Azerbaijan's most distinctive national emblems.

The Maiden Tower houses a museum, which presents the story of historic evolution of the Baku city. Qiz Qalasi is a legendary place and world-famous landmark in Baku, Republic of Azerbaijan. The Tower is covered by cloud of mysteries and legends which are rooted to the History of Azerbaijan and national Culture of Azerbaijan. The pool of tower's epics and legends is a part of Azerbaijan's culture and national heritage.

Consequent to the receding of the sea shore line of the Caspian Sea, a strip of land emerged. This land was developed between the 9th and 15th centuries, when the walls of the old city, the palace including the huge bastion of the Maiden Tower were built

## The Heydar Aliyev Center

The Heydar Aliyev Center is a 57,500 m<sup>2</sup> (619,000 sq ft) building complex in Baku, Azerbaijan designed by Iraqi-British architect Zaha Hadid and noted for its distinctive architecture and flowing, curved style that eschews sharp angles. The center is named after Heydar Aliyev, the first secretary of Soviet Azerbaijan from 1969 to 1982, and president of Azerbaijan Republic from October 1993 to October 2003. Heydar Aliyev Center had an official soft-opening ceremony on 10 May 2012 held by current president of Azerbaijan Ilham Aliyev.

In 2007, Zaha Hadid was appointed as the design architect of the Center after a competition. In 2014, the Center won the Design Museum's Design of the Year Award 2014 despite concerns about the site's human rights record. This makes Zaha Hadid the first woman to win the top prize in that competition.

## Atashgah

Historical monument. The temple of fire worshippers Ateshgah, located on the Absheron peninsula on the outskirts of Surakhani village, 30 km from the centre of Baku, was revered in different times by Zoroastrians, Hindus and Sikhs. The current constructions of the temple date back to the XVII century. As a result of excavations, far more ancient artifacts were discovered here. The pentagonal complex has an open courtyard with temple-altar in the center which was the place of pilgrimage for worshippers. By the decree of the President of Azerbaijan Ateshgah was declared a State historical-architectural reserve. This open-air museum has been recently restored. Different workshops and souvenir galleries are located here now. 30 km from Baku.

## Yanardagh

Azerbaijan has been historically known as the Land of Fire because of its rich oil and gas resources. The natural fire that have been blazing in various parts of the country for millennia have greatly influenced the beliefs and traditions of the local people and has been celebrated in works of literature and art. An example of this natural phenomenon is found 25 kilometres from Baku, in a place known as Yanardagh located in the village of Mahammadli. The natural gas that seeps onto the surface gives this mountain (whose name translates as 'burning mountain') its famous 'burning' look. In order to protect Yanardagh and attract tourists here, this area was declared a historical, cultural and natural reserve in 2007. Today Yanardagh reserve is a favourite destination for tourists visiting the country. The mountain appears to be covered in tongues of flame from its foot to its peak, resembling red tulips. At first, such an unusual sight may give a strange impression, but this feeling turns into fascination upon watching the fire majestically seep out of the mountain core. 25 km from Baku.

## Gobustan

Gobustan preserve is located in the eastern part of Azerbaijan, in the area of the Boyukdash, Kichikdash and Jingirdagh Mountains of Greater Gobustan. The Gobustan preserve is widely known, not only in our Republic but also worldwide, for its rock engravings and monuments of primitive culture. These monuments are ancient drawings, cupules for preparing drinks and gathering rain water, two-sided hollows for tying-up animals, signs, tamgas, ancient inscriptions and so on. Revealed and registered on more than a thousand rocks and stones these monuments were created by ancient man and are the reflection of his agricultural and intellectual activity. The Petroglyphs of Gobustan are artistic chronicles of the past. They bear great importance both for the study of the pre-history of humanity and for the study of lots of spheres of primitive art: graphics, music, dance, stone processing, etc. Gobustan's monuments cover a period of approximately 20 thousands years beginning from the end of Upper Paleolith till the beginning of our era. 60 km from Baku.

## Neft Dashlari

Neft Dashlari (Oil Rocks) is an industrial settlement in Baku, Azerbaijan. The settlement forms part of the municipality of Chilov-Neft Dashlari in the Khazar raion. It lies 100 kilometres (62 miles) away from the Azerbaijani capital Baku, and 55 kilometres (34 miles) from the nearest shore in the Caspian Sea. A full town on the sea, it was the first oil platform in Azerbaijan, and the first operating offshore oil platform in the world, incorporating numerous drilling platforms. It is featured in the Guinness Book as the world's first offshore oil platform.

The settlement began with a single path out over the water and grew into a system of paths and platforms built on the back of ships sunk to serve as the Neft Dashlari's foundation. The most distinctive feature of Neft Dashlari is that it is actually a functional city with a population of about 2,000 and over 300 kilometres (190 miles) of streets built on piles of dirt and landfill.

## Nizami Ganjavi Mausoleum

The first mausoleum at the tomb of Nizami was built in the 13th-14th centuries. In 1947 a new mausoleum was built. The current building dates back to the year of 199. Near the mausoleum there is a sculptural complex depicting the great poet surrounded by the characters of his works. An artificial lake and five fountains were made to symbolize the five major poems of Nizami, known as «Hamsa».

Nizami Ganjavi is a worldwide famous Azerbaijani poet, thinker and mastermind, who lived and created in XII-XIII centuries. Nizami Ganjavi was very educated man. He had good knowledge not only in literature, but also in medicine, theology, Christianity, Islamic law, Judaism, Iranian mythology, philosophy, esotericism, music, arts, astronomy and etc. Nizami is best known for his main work - five long narrative poems, combined under the single name "Khamsa". All of these five poems are written in the "masnavi" (double-rhymed) style, with overall 30 000 double rhymes used. Nizami's poems contain unique information, which has survived to this day only thanks to his works.

## Ganja Fortress

The famous Ganja fortress, known as «The Shield of Asia» was built by the leader of Turkish army in the Caucasus Farhad Pasha according to the order of the Turkish Sultan Murad III in 1588. The total length of the walls, erected 7 km away from the historic center of Ganja, reached 13.7 km and height - 12 m. Only one fragment of the fortress walls remained, and now is called «Shiraliyab's Tower.» In 2007 it was reconstructed.

## Sheki Fortress

Located at the top of the hilly north-eastern part of the city, Sheki fortress was built during the reign of the first Sheki Khan Haji Chalabi (1743-1755). Fortress was a stronghold of the Khan, the constructions of city use were outside of it. Many buildings were constructed inside the fortress in different periods of time, the number of those would go up to forty, and the main was the Khan's palace.

## Sheki Khans Palace

Unique in the architecture Sheki Khans Palace was built in 1762 by Huseyn-khan. The palace has its own special original construction techniques. It is enough to say for example that each square meter of shabaka (box of small wooden parts to be filled with colored glass) consists of five thousand parts, connected with each other without nails!

## Albanian Temple

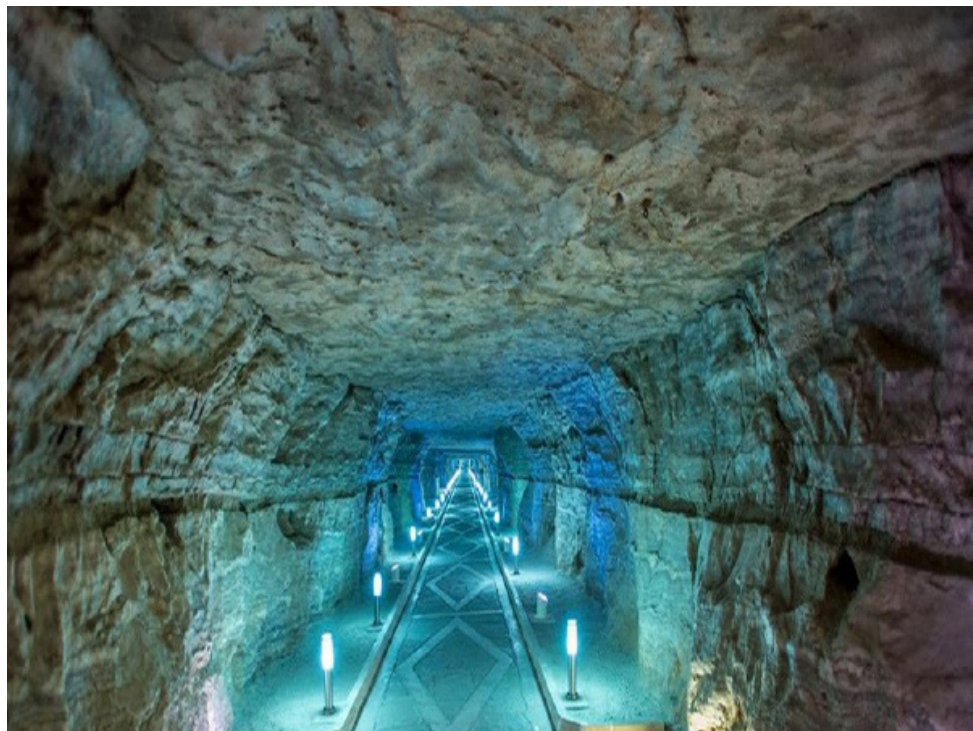

The temple in Lakit Village was built in the 5th century and is one of the most ancient architectural monuments of Caucasian Albania. The ruins of the temple are one km away from the Lakit Village in Gakh District. The temple was built in the shape of a circle with a room, 22 meters in diameter. In the north, south-east and west sides of the temple there are four doors, made in the shape of portals. The most interesting and significant feature of the temple is the structure of its interior. The arches, built on four massive pillars with columns between them in the center, support the dome that covers the central part of the temple. The overall composition of the columns has the shape of an octagon.

## **Istisu Masalli**

Istisu Masalli is famous for its mineral springs, the most famous of which is Istisu (literal translation from Azerbaijani - «hot water»). This thermal spring breaks in several places at the Vilashchay river bank on the Dombal hillside at 1,650 meters above sea level. Water comes hot (about 69 degrees) from 90-250 m depth and is indicated for the treatment of many diseases. Today, there is a sanitarium «Fatima Zahra» and a variety of tourist facilities.

## Duzdagh

12 kilometers from the city, there is the Duzdag Mountain (Salt Mountain), one of the main symbols of Nakhchivan. It is one of the oldest salt deposits in the world. According to French and Azerbaijani scientists, the exploitation of this mine began as early as 4,500 years ago. Salt deposits here are so abundant that its production is still active, and one of the salt mines was specially equipped for patient treatment. Since 1979, a physiotherapy center «Duzdag» functioned here. Recently the sanitarium was fully updated and a five-star hotel with 150 rooms was built on its territory.

## «Gilavar» Photo Club of Azerbaijan

«Gilavar» Photo Club was established on December 1, 2017 in Baku, the capital of Azerbaijan. The club is engaged in local and international photo competitions. «Gilavar» Photo Club has been a member of FIAP international photography since December 19, 2017 and has been approved as an individual local photo club in Azerbaijan - ILFIAP.

Gilavar is a name of the warm southern wind which blows across eastern Azerbaijan throughout the year, particularly in Absheron peninsula. The Gilavar is mainly observed in the summer months. The wind blows from land to sea.

## Short talk with jury members

### Kakha Pkhakadze

**– A photographer is primarily a person. What qualities should a real photographer have?**

As in any other kind of art, sex does not matter. Photography is divided into directions. There are fundamental differences between the directions. For example, expression in genre photography is on its maximum, and in reproductive photography its zero. Accordingly, these attributes require skills and knowledge. Wherever you need a fantasy, reincarnation, and somewhere - an excellent knowledge of technology and light.

**– What attracts you in the art of photography?**

I'm attracted to the fact that with the help of photos you can compose very interesting tales, that is, the possibility of space transformations. The image has a unique code - you do not need to decode it, and so everything is clear.

**– How long have you been in photography?**

My experience in photography is 43 years.

**– Which genre is closer to you?**

The genre changes with age and needs. I mean, photography is not only my hobby, its my main job.

**– Has the photography changed your life? If so, how?**

Yes, it has. The specialty of the photographer requires a special way of life, these are various trips and night work in the studio, operations with chemicals (before digital age) and considerable time behind the monitor for processing.

**– If you have unlimited possibilities, whom or what would you like to shoot?**

Wild Nature! Definitely!

**– What photography session was the most memorable?**

Last year I was in Turkey by invitation to the photocamp. We were led to shoot a reportage of the religious rite. There were about 50 people in the group, all photographers. The basement, the dim light, the quartet plays on the national instruments and perform local dances. Ironically, almost all photographers switched to shooting video! I somehow climbed through a group of filmmakers and on a long exposure (as much as 5 seconds!) made a very interesting and expressive frame. Then, after a campaign, the organizers put this shot in social networks.

**– Photography plays an important role in shaping our perception of the world around us. What do you think there should be more in it - really imprinted things or artistic content?**

Again, it depends on the task and direction. Documentary does not differ from artistry, of course there are proportions, but when they are together they are always more interesting and memorable.

**– What images mainly attracted you in this salon, on what criteria do you base while evaluating the work?**

There are generally accepted evaluation standards, ideas, techniques, etc. for me the main novelty of the approach to the topic, the form of disclosure. Simple copying is not very interesting from the point of view of evaluation.

**– What would you wish our participants?**

I wish all participants creative success! New forms of conveying their emotions and good luck, since, without it, photography simply does not happen!

## Nino Mghebrishvili

### **– What qualities should photographers have?**

Art photography is a way to convey your subjective view, emotions to others i.e. through your own prism to show the world to people with the help of a very interesting instrument. In our time, the time of technology, everyone can push a button and take a picture. But not everyone can use the light in right way, or to play with shadows and glares. Without these qualities, the photographer could not become a master.

### **– What attracts you in the art of photography?**

Photography is a multifaceted art. You are an artist, you paint, you create on the canvas a beautiful landscape, an attractive

portrait or simply life with its difficulties, problems and joys. You show your world to people through the lens of your subjective views and relationships. In your pictures, they see the world as you see and either perceive it or not. In any case, if they have emotions while watching your work, then the goal is achieved. So, your work touched their souls.

### **– How long have you been in photography? Has it changed your life? If so, how?**

I have been engaged in photography for several years, but photography for me is the whole life. I like not only to shoot, but also to view beautifully and competently taken photos. Where you can read not only, for example the landscape or the figure of the model, but also the work, knowledge and skills of photographer. Because all of this is not achieved in one day. This is work, hard work and photography is not just «I show how I see it» but knowledge, practice and work.

### **– If you have unlimited possibilities, whom or what would you like to shoot?**

Well, if we are talking about limitless possibilities, let's turn on the imagination and sit for a few minutes in the cabin of the spacecraft. It would be great to look on the Earth not through the atmosphere but from above. Or let's use the Hubble Space Telescope to shoot nebulae.

### **– Photography plays an important role in shaping our perception of the world around us.**

**What do you think there should be more in it - really imprinted things or artistic content?**

It could be both, reality or artificial things, it depends on what the photographer wants us to tell. Sometimes, this is an unreal, miraculous image, transmitted in different photographic ways. Sometimes it's just a harsh, real life.

**– What images mainly attracted you in this salon, on what criteria do you base while evaluating the work?**

Many beautiful photographs participated in the salon. It was not easy to choose the best. There were good pictures in the genre of portrait, landscape, and wildlife. I liked the photos, where there were more emotions, actions, plot. Besides the composition, of course, the technical abilities of the artist are very important, and vice versa, the technical performance without emotion and good composition, although it is brilliant, loses its meaning. It takes a lot of work, knowledge and practice for many years to achieve the fusion of these two skills. I wish that in the works of the participants this merging will always felt.

## Natalia Zviadadze

**– A photographer is primarily a person, but how is it to be a woman photographer?**

In the XXI century it does not matter whether you are a woman or a man (sorry for the pun). Photographer should be more observant than just a passerby. He should have more free time to form himself, because photography is primarily a portrait of the artist himself, and only then a model.

And, of course, we should study our camera very well, so that it would be a continuation of your body and thoughts, because often we can skip an excellent shot while we are tinkering with the settings in the camera. After all, the one who drives well the car no longer thinks about what pedal to press and in which direction to turn the steering wheel ...

**– What attracts you in the art of photography?**

Unlimited possibilities for self-expression, impact on the viewer and membership in the photo community, one of the most interesting societies to date.

**– Which genre is closer to you?**

I like to photograph all the beautiful things that surround me. I absolutely do not want to take off problems and «open up the boils» of society. My work should be positive for the viewer, even if it is a portrait of a thoughtful person, this does not mean that he is sad. I like to shoot portraits, flowers and architecture.

**– Has the photography changed your life? If so, how?**

Photography gave me a chance to be interesting for my family again. Photography teaches me to go forward all the time, but not to hurry. Because there is so much more to come!

**– If you have unlimited possibilities, whom or what would you like to shoot?**

I really want to shoot the underwater world of the ocean. But I'm not destined to - I'm wildly afraid to dive ...

**– Photography plays an important role in shaping our perception of the world around us. What do you think there should be more in it - really imprinted things or artistic content?**

I think that it should be more the artistic content and emotions. If the photo does not

cause the viewer to have an emotion, she will not live.

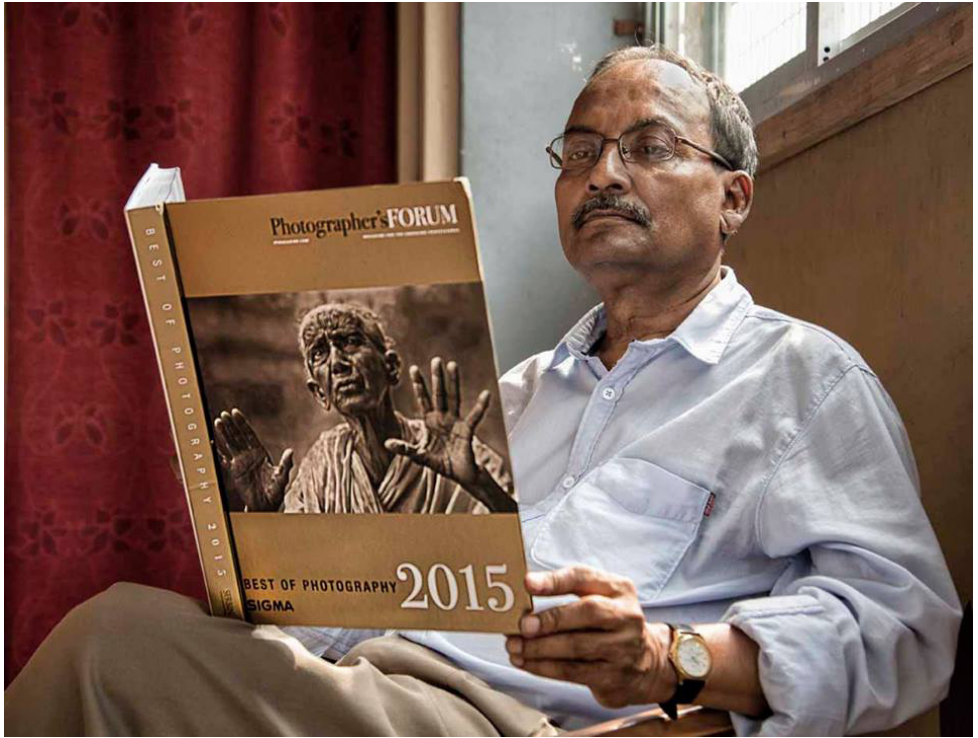

**– What images mainly attracted you in this salon, on what criteria do you base while evaluating the work?**

There were a lot of similar works, a feeling that a lot of photos from one photo plener or from one joint tourist trip. Very pleased authors with an unusual vision of the same portrait, landscape. I wanted to see more of the individuality in the works, rather than reports on trips to cities that have long been known to all, or to world-famous festivals. I evaluated image based on three criteria - emotion, interesting-new and technical side.

**– What would you wish our participants?**

Look for your unique style and personality. Before sending the work to the competition, gather at least 6 people and show them your work. Sometimes that picture, which seems to you not the most successful, can cause more emotion than the most correctly constructed. All creative successes!

## Interview with Aparesh Sarkar

My tryst with photography began in my teens ,with an AGFA Isoly Junior Camera gifted by an uncle in the year 1967-68.

Photography as a profession was not too much of a career neither a passionate hobby for most in rural India. It was only when my uncle got married did I see a photographer taking photographs. He was gifted with two identical AGFA- JSOLY camera's and he gladly gave me one .

This JSOLY camera was known in England as ISOLY, had a plastic body, meniscus plastic lens with a fixed aperture(f/8) and shutter speed 1/30 and 1/100. A medium format film camera. This camera became my companion overnight. I started shooting pictures, experimenting with lights, and later develop them in darkrooms. The magic created in darkrooms would keep me mesmerized and immersed in photography for hours.

In the professional front I was working in a financial institution which would take me places every two years and I had the privilege of travelling to a new place and settling there, helped

me sharpen my photographic skills.

In the year 1984,I travelled to the Andaman and Nicobar Island's and stayed there for two years. During the stay ,I travelled the length and breadth of the island photographing the aborigines of the Nicobar, the virgin beaches of the Andaman's, the ruins of the Viper Island, the Corals of the Ross Island.

The roaring seas, the azure sea ,the grey sea...I loved to be with them and picturise every changing mood and light.

There was no looking back when after two years I arranged a slide show of these pictures after coming back to Kolkata

In the year 2000 ,I was awarded by Hinkle spick India Ltd. in a nationwide competition for advertising photography as the top winner. My first Salon Photography was way back in 1986, Luxembourg Biennial Salon.

After I retired from my profession in the year 2014 I had the time and opportunity to take up photography seriously, participating in salons worldwide, with honours gradually coming in.

I was awarded the first place in International Competition and got a cash prize of 3000 USD in « Best of Photography 2015» organised by Serbin Communications, Santa Barbara, California.

I love to see the great Masters' work like Henry Cartier Bresson, Ansel Adams, Benu Sen.... the contemporary photographers like Steve McCurry, Prabuddha Dasgupta, Avishek Das, and I must mention the name of my Photography teacher, Mr Shyamal Kumar Roy of India who has guided me on my later part of Photographic work.

The ever changing nature of the landscape enthrals me most. I like to capture the vast, never-ending lands, beautifully painted by natural lights, changing every moment making my photography a form of art.

For young photographers, I would say ....plan a shoot thoroughly..study the subject and location , knowledge about both is is extremely important. Time is important too .The gadgets should be checked. Nothing extra should be carried for you to move around a lot and the equipment are heavy. And lastly participation in professional competition is a must ...since it helps in keeping in touch with the latest .

The image was taken in a very small wooden church in Salaj county of Romania. All these local people were incredible gracious with their time and were patient when being photographed. There was so little light in the church that the ISO had to be pushed pretty far to make a decent shot even at F/4. This is one of the few that were not blurred, and I'm very happy with the result.

The photo is taken near Bergen in Norway desember 2010. A very cold morning before the sunrise I find this image when I stood on the frozen lake.

It is a photo taken in Seville (Spain). In the center of Seville there is a large amount of traffic and tourists. On one of the bridges over the river Guadalquivir and waiting to be able to cross the river I noticed how two people with reduced mobility moved between the traffic of cars and humans with incredible ease, in their motorized chairs. And I thought about the difficulty that these citizens have to move in a big city, and the amount of daily problems that the disabled have. But these two citizens enjoyed a walk despite this difficulty. So I waited until they were at my height and I took the picture with my Nikon D90, to document the courage of these people.
